[REDACTED]:
Professionals Resource Network (PRN) operates the State of Florida's Impaired Practitioner Program. PRN serves as the Consultant to the Department of Health (DOH) and the Department of Business and Professional Regulation (DBPR) on matters of potentially impairing health conditions that are the result of the misuse or abuse of alcohol, drugs, or both, or a mental or physical condition that could affect a practitioner's ability to practice safely.

This letter is to inform you that you have been: **refrained from practice**

This refrainment will remain in force until lifted by PRN in writing.

Refrained from practice means a restriction or prohibition from practice imposed by PRN as a condition of continued impaired practitioner program participation. Refrainment by PRN is not administrative action against your license taken by the DOH/DBPR or your license board.

Practicing while refrained occurs when a licensee practices under their license during a time period when they have been refrained from practice by PRN.

Pursuant to PRN's contract with the DOH/DBPR, failure to refrain or practicing while refrained requires PRN to refer the licensee to the DOH/DBPR within one (1) business day.

Sincerely,

[REDACTED]
Case Manager
